

LIST OF PUBLICATIONS SINCE PROCEEDINGS 8

- Bergem, D. van and Drullman, R. (1985). The influence of contextual speech rate on the identification of Dutch vowels in normally and rapidly spoken tvt utterances. IFA-report nr. 77, 28 pp. (in Dutch).
- Bloothoof, G. (1985). Spectrum and timbre of sung vowels. Diss. Free University of Amsterdam, 169 pp.
- Boxelaar, G.W. and Pols, L.C.W. (1985). State-of-the-art report about intelligibility evaluation of speech coding and text-to-speech synthesis systems. IFA-report nr. 79, 20 pp.
- Dijk, J.S.C. van (1985). The complete solution of the basilar membrane condition in two dimensional models of the cochlea. In: J.L. Hall (Ed.), Mechanics of Hearing, Springer-Verlag, New York (in press).
- Dijk, J.S.C. van (1985). Properties of the phase-integral in cochlear hydrodynamics. IFA-report nr. 80 (in press).
- Jansonius-Schultheiss, K. (1985). Dysfasie. In: Tijdschrift van Horen Zeggen (in press).
- Jansonius-Schultheiss, K., Coppenolle, L. van, Beyaert, E. (1985). Deviant mouth behaviour. Introduction in assessment and treatment. Acco, Leuven/Amersfoort (in press) (in Dutch).
- Koopmans-van Beinum, F.J., Wouters, H.A.L., Buiting, H.J.A.G. and Pols, L.C.W. (1984). The influence of response categories on the identification of vowels excerpted from conversational speech. Proceedings of the Institute of Acoustics, Vol. 6, Part 4, 363-370.
- Koopmans-van Beinum, F.J. (1985). Book review of: S.G. Nootboom and A. Cohen, Spreken en Verstaan. Een nieuwe inleiding tot de experimentele fonetiek. 2nd revised ed., Van Gorcum, Assen, 1984. In: Spektator (forthcoming).
- Koopmans-van Beinum, F.J. and Stelt, J.M. van der (1985). Early stages in the development of speech movements. In: B. Lindblom and K. Holmgren (Eds.), Precursors of Early Speech, Wenner Gren Int. Symp. Series, Macmillan Press Ltd., Scientific and Medical Division Basingstoke, England (in press).
- Meinsma, G.L. (1985). Variables and constants: finger exercises in etudes. In: L.I. Pille (Ed.): Achtergronden. Amsterdam, 21-25 (in Dutch).
- Nieboer, G.L.J. (1985). Vowel contrast reduction in French. IFA-report nr. 78, 56 pp (in Dutch).
- Pols, L.C.W. (1984). Similarities and differences between human and automatic speech recognition. Nederlands Akoestisch Genootschap Publication NAG nr. 74, 1-8 (in Dutch).
- Pols L.C.W. (1984). Book review of: Nootboom, S.G. en Cohen, A. Spreken en Verstaan. Een nieuwe inleiding tot de experimentele fonetiek. 2nd revised ed. Van Gorcum, Assen. In: Forum der Letteren, 25 nr. 4, 312-314 (in Dutch).

- Pols, L.C.W., Boxelaar, G.W. and Koopmans-van Beinum, F.J. (1984). Study of the role of formant transitions in vowel recognition using the matching paradigm. Proceedings of the Institute of Acoustics, Vol. 6, Part 4, 371-378.
- Pols, L.C.W. and Schouten, M.E.H. (1985). Plosive consonant identification in ambiguous sentences. J. Acoust. Soc. Amer. 78, 33-39.
- Pols, L.C.W. (1985). Variation and interaction in speech. In: J.S. Perkell and D.H. Klatt (Eds.) Invariance and variability of speech processes, Lawrence Erlbaum Associates, Inc., Hillsdale, NJ. (in press).
- Pols, L.C.W. (1985). Interaction between human and machine models of speech recognition. In: Proceedings of Symposium on Language Technology, April 1985, Tilburg (presented for publication).
- Stelt, J.M. van der and Koopmans-van Beinum, F.J. (1985). The onset of babbling related to gross motor development. In: B. Lindblom and K. Holmgren (Eds.), Precursors of Early Speech. Wenner Gren Int. Symp. Series, Macmillan Press Ltd., Scientific and Medical Division Basingstoke, England (in press).
